

"Software Engineering Innovation Challenge 2026"

Division: G -CE

Team Name: Hospital Appointment Management

Technology :

Team Member Roll-no with Branch: (CE-40, IT-18)

Problem Statement (Short):-

Hospital Appointment Management

Problem Statement (Descriptive):

Hospital Appointment Management is a system that allows patients to book doctor appointments online without waiting in long queues. It helps hospitals manage schedules efficiently, reduces waiting time, and improves patient service through easy appointment booking and queue management.

Branch	Roll-No	Team Member Name	Role	Contact No
